

NEXORIS TALENTS SOURCING

HERE ARE SOME EXAMPLES OF THE
EXPERTISE WE OFFER OUR CLIENTS

DATA / DIGITAL

SCOPE OF THE MISSION

CLIENT Bank Headquarters

PROFILE Data Architect

DURATION 34 months

MISSION DESCRIPTION:

Assist in the creation of data technical architecture roadmaps for business IT departments:

- Identifying targets, urbanization schemes by Business Units, "cloud-first" strategy and provider selection.
- Support in steering and reporting for POT (Proof of Technology) and POC (Proof of Concept): Contribute (think and build) to the development of POCs and POTs advancing the OnPrem and/or Cloud target.
- Support business/IT departments in implementing an 89CR data architecture offering: Define the offer's content, required expertise, offer catalog, the Data Architect's role, links with agile methods, and the Cloud Factory. Assist internal resources with initial business requests.

SCOPE OF THE MISSION

CLIENT	Investment Bank
PROFILE	Generative AI Data Scientist
DURATION	12 months

MISSION DESCRIPTION:

As part of a study and implementation project on Generative AI, a call for an experienced AI resource has been made. An external provider completed an initial POC, and the goal is to take over, improve the existing work, and continue the project with new use cases.

SCOPE OF THE MISSION

CLIENT	Retail Bank
PROFILE	Digital Expert
DURATION	24 months

MISSION DESCRIPTION:

Strategic program for the digitization and transformation of succession-related activities:

- Describe customer journeys and processes
- Act as an interface with business lines, project management teams, and IT operations.
- Oversee the production rollout of the new offering and digital platforms.
- Specify the integration of an external partner and manage contract negotiations.
- Prepare validation meeting materials.
- Formalize the deployment.
- Facilitate relevant project meetings with different business units.
