HERE ARE SOME EXAMPLES OF THE EXPERTISE WE OFFER OUR CLIENTS

FRONT / MIDDLE / BACK OFFICE

NEXORIS
CONNECTEUR DE TALENTS

2025

SCOPE OF THE MISSION

CLIENT	Investment Bank
PROFILE	Target 2 Payments Project Manager
DURATION	36 months

MISSION DESCRIPTION:

Frame the migration of message formats from MT to MX on the business side (list of messages to migrate, mapping, alignment with application-specific requirements, etc.) and monitor the progress of the converter's development.

- Finalize the scoping of accounting impacts (validate macro impacts, specify new needs) and manage the implementation.
- Define a testing strategy for the T2-T2S consolidation project, establish and coordinate the tests.

SCOPE OF THE MISSION

CLIENT	Investment Bank
PROFILE	International Settlement Manager
DURATION	24 months

MISSION DESCRIPTION:

Handle the settlement/delivery of all types of securities processed by the various departments and manage related events (corporate actions) and reconciliation of securities and cash positions:

- Manage operations initiated by traders.
- Control, monitor, and validate operations within the information system.
- Follow up on the settlement/delivery of operations in international markets (notably Euroclear Bank, Clearstream Luxembourg).
- Report issues and information to the relevant departments (trade support, front office, accounting, etc.).
- Resolve disputes identified in operations with counterparties (frequent interactions with counterparties, custodians, paying agents, etc.).
- Perform reconciliations needed for activity control (tracking internal and external discrepancies as well as positions).
- Contribute to the improvement of the information system by providing suggestions.
- Participate in various regulatory reporting.
- Prepare activity tracking reports.

SCOPE OF THE MISSION

CLIENT	Investment Bank
PROFILE	Calypso Business Analyst
DURATION	18 months

MISSION DESCRIPTION:

Business analysis (MOA) within the Market Transformation teams for the Calypso software package.

EXPECTED DELIVERABLES:
- Requirement specifications
- Functional specifications
- Configurations and appropriate documentation
- Functional test plans
- Test execution and reports
- Workshops with business teams and related meeting notes, if necessary.
